Customer Reviews

This book is awesome! Its super easy to understand and makes digital marketing so simple. It was the best choice I could have made. I'm new to the SEO world and I was looking for something that could help me to understand the basics. This was the perfect choice. I love this book and it has given me awesome foundation for my digital marketing career :)

Amateurish. The author sometimes even provides the wrong information, such as saving a robots.txt as a 'word file' rather than as a 'plain text file', and referring to an 'ht.access' file instead of a '.htaccess' file. This is like a book of compiles notes from existing web articles, but ridden with errors.

This book is an incredible wealth of knowledge! Some of the information was a complete eye opener for me. This book is loaded with information and is divided nicely into 5 books covering various aspects of digital marketing with nice lists of industry tools, FAQ sections, how-to tutorials. This book was really informative and I'll be using a lot of the learnings from it for my site.
