E-Learning Uncovered: Articulate Storyline 2

Synopsis

Want it in full-color? Check out the Kindle version! The E-Learning Uncovered series is designed to give you the maximum amount of information in the minimum amount of time. You'll learn about virtually every check box, every menu, and every option in Articulate Storyline 2. But we don't just tell you HOW to check that box or click that menu; we also tell you WHY you might or might not want to. Brand new users will learn all the basics of how to get started: scenes, slides, graphics, layers, states, questions, and screen recordings. Intermediate users will uncover the more powerful tools to create advanced interactions: actions, variables, and conditions—all in one book! Everyone will benefit from the special tips and insider secrets that let you do more and save time. Look for: Design Tips: instructional design, graphic design, and usability tips that give you insight on how to implement the different features of the software. Power Tips: advanced tips and secrets that can help you take your production to the next level. Time Savers: software shortcuts and ways to streamline your production efforts and save you time. Bright Ideas: special explanations and ideas for getting more out of the software. Cautions: lessons learned the hard way that you can use to avoid common problems. Web Resources: the free companion website includes useful resources such as reference guides and practice files.

Average Customer Review: 4.1 out of 5 stars See all reviews (8 customer reviews)

Best Sellers Rank: #227,700 in Books (See Top 100 in Books) #190 in Books > Business & Money > Management & Leadership > Training #3265 in Books > Business & Money > Skills

Customer Reviews

Super disappointed. It's neither engaging nor comprehensive. There's not many Storyline books available; but I honestly think you'd be better off just reading through Articulate's tutorials, even though those are far from comprehensive as well.

Great resource! Includes both the how to's and the why's. A must have for all skill levels.

great resource. easy to read and apply quickly.

Nice book! Gives a lot of hints and information about Storyline 2. Its a little crowded in the layout and its not really friendly for the beginner. But you find all you need to get a good start. As long as you still like to work with books to learn using a Software. Why not a similar smart eBook or even eLearning program?
