Understanding Spanish Conversation: Learn The Words, Phrases And Grammar Spanish Speakers Use Everyday And Quickly Become One Yourself!

Synopsis

Have you spent a great deal of time learning Spanish only to find that you can't converse in it? Have you been looking for something to help you break out of basic or tourist Spanish? Then look no further! In this book, you will learn how to take the concepts that we use in everyday English conversation and convey them in Spanish. You will learn the words, phrases, and grammar necessary to start speaking Spanish more naturally, the way the natives speak. By learning to speak more naturally, you will more easily be able to engage Spanish speakers in conversation, leading to immersion, which is the absolute best way to learn a language hands down. Everything in this book is written to help you learn difficult Spanish concepts, in a way that makes the most sense to an English speaker. As a native English speaker myself, I have experienced the same frustrations that many of you may now be going through. This book is written to end those frustrations right now. This book doesn't teach academic Spanish and will not overwhelm you with complicated rules of grammar. I just make everything as simple as possible so that you can take what you learn from this book and use it right away. Buy it now and start improving your Spanish immediately!

Customer Reviews

Such a great way to learn a language, especially if you are already tangentially familiar with it. Quick, easy and all you need to get started. Definitely doesn't replace true immersion learning, but gets you started.

This is a great reference book for someone who just needs to get through day-to-day conversations in Spanish without learning all of the rules and theory. It's perfect for someone who has a rudimentary understanding of Spanish, like, say, if you took it in high school but have forgotten most of it. The book's main part is entries for phrases sorted alphabetically in English, each entry explaining how it would be said in Spanish along with some examples. The structure allows you to learn at your own pace and being that it's ordered in a way that's most helpful to a native english speaker, you can easily find the phrases that you might need on any given day or during a given conversation. I highly recommend this Kindle book, and for only $3 it's a great deal.

Definitely a great book to read through and then refer back to time and time again. It's very beneficial for people like me who travel a lot and also work with families whose first language is Spanish. It's a very helpful book and I highly recommend it!
