This one is a must share for everyone because I can see nowadays that people are being conscious with their health now and running is what they wanted to do. Like me, I also wanted to include running as one of my daily exercise and this has helped me understand what I should do and not do if I am going to start running.

Nice book on running! Wonderful details about how to be a healthy runner, how it can be beneficial to your health and what you can do too stop injury. I know I've sprained my foot running barefoot, so great they point out some things about running barefoot. :)

This book has a lot of helpful and actionable tips. There's a lot of detailed info on how to keep your motivation as well as the pace. If you're serious about running, I highly recommend this book.

Sucked.
