# Absolute Beginners - Harmonica

## Synopsis

(Music Sales America). Learning to play harmonica is now easier than ever before! The Absolute Beginners course has been designed to tell you everything you need to know from the very first time you pick up your harmonica. With this superb book you get a comprehensive harmonica course featuring step-by-step pictures which take you from first day exercises to playing along with backing tracks. The book contains practical advice and tips covering everything you need to know about setting up, playing and maintenance, and the CD contains audio versions of the exercises in addition to full-length accompaniment tracks for you to play along with.

## Customer Reviews

For new harmonica players I recommed this books. it is easy to read, understand and follow the lessons. all the visual material included in the book is good for new musicians using this instrument. The book is new and received in excellent conditions.

Great book for anyone interested in improving their harmonica chops! I am an advanced beginner and this book opened my eyes and ears to many aspects of playing. Dave covers every subject clearly and thoroughly. Get it!

This harmonica music book is really great, I would recommend this to all who are learning to play

the harmonica. Simple and easy to follow directions, you can't go wrong. This book will start you off in playing your favorite tunes on the harmonica for years to come.

Intro is fine, showing placement and explanation of holes, how to read harmonica tabs, etc. Music on CD is very boring and songs too similar, although the arrangements were at a pace that was easy to play along with.

My son is 13, played right along with the cd provided

The book is very short. The CD won't play. The 15 pages of written instructions are clear and simple, but rigid ("hold your harmonica as shown in your left hand"). Several songs besides. Good for absolute beginners maybe - I'm returning after decades of not playing - needed tips on making the seal and moving on the harp with false teeth and slow hands - nada.

A great beginners book for the harmonica. The companion CD was very helpful in helping to get my timing down and to let me listen to the notes to ensure I was playing them correctly. I learned three of the songs in just a few days. Now I cannot stop playing. Harmonica beginners, this is the book you want to buy.

The book looks fine enough, but the cd is missing. Would have been nice to know this since the talk about the cd in the description. It would have been nice to have the option of whether or not I wanted the cd. If you are going to advertise it with a cd it should have the cd! So annoying!
