Star Wars: Heir To The Empire (20th Anniversary Edition), The Thrawn Trilogy, Book 1

Synopsis

Here is a special edition 20th anniversary release of the number-one New York Times best-selling novel that reignited the entire Star Wars publishing phenomenon - unabridged for the first time. The biggest event in the history of Star Wars books, Heir to the Empire follows the adventures of Luke Skywalker, Han Solo, and Princess Leia after they led the Rebel Alliance to victory in Star Wars: Episode VI Return of the Jedi. Five years after the Death Star was destroyed and Darth Vader and the Emperor were defeated, the galaxy is struggling to heal the wounds of war, Princess Leia and Han Solo are married and expecting twins, and Luke Skywalker has become the first in a long-awaited line of new Jedi Knights. But thousands of light-years away, the last of the Emperor's warlords - the brilliant and deadly Grand Admiral Thrawn - has taken command of the shattered Imperial fleet, readied it for war, and pointed it at the fragile heart of the New Republic. For this dark warrior has made two vital discoveries that could destroy everything the courageous men and women of the Rebel Alliance fought so hard to create. The explosive confrontation that results is a towering epic of action, invention, mystery, and spectacle on a galactic scale - in short, a story worthy of the name Star Wars.

Book Information

Audible Audio Edition

Listening Length: 13 hours and 13 minutes

Program Type: Audiobook

Version: Unabridged

Publisher: Random House Audio

Audible.com Release Date: September 6, 2011

Language: English

ASIN: B005LEV2V6

Best Sellers Rank: #26 in Books > Audible Audiobooks > Science Fiction > Adventure #32 in Books > Audible Audiobooks > Fiction & Literature > Action & Adventure #83 in Books > Science Fiction & Fantasy > Science Fiction > Space Opera

Customer Reviews

In 1991, Bantam Books and Lucasfilm Ltd. reinvigorated interest in the Star Wars universe (well, galaxy) by gathering a diverse group of noted science fiction writers and starting a regular series of novels set in the time period which follows Return of the Jedi. Timothy Zahn's Heir to the Empire, the first volume of a three-book cycle, was almost an instant phenomenon when it was published in

hardcover. With its depiction of the continuing battle between what is left of the Galactic Empire and the fledgling New Republic, this novel cleverly mixes the characters from the Classic Trilogy with a cast of newly created heroes and villains, some of whom will make appearances in other authors' Star Wars works. As Heir to the Empire begins, the New Republic has been engaged in a long campaign to mop up the remnants of the once-mighty Empire. The once dreaded Imperial Fleet is in disarray, political and military control of the late Emperor Palpatine's New Order has changed hands several times, yet the former Rebels have reduced Imperial dominion to one quarter of its former size. Yet even as Mon Mothma and the New Republic government establish democratic rule from Coruscant (former capital of both the Old Republic and the Galactic Empire), a new dark force has arisen in the form of one of the Empire's most cunning warriors. His name is Thrawn, and his tactical and intellectual gifts are so great that the racist and sexist Palpatine had promoted him to be the only non-human to wear the white uniform of Grand Admiral. For several years after the Battle of Endor (where the Rebels destroyed the second Death Star and both the Emperor and Darth Vader died), Thrawn was pacifying the Unknown Regions until his return to Imperial territory.

Being a hard-core Star Wars fan since '77, I was thrilled but cautious when 'Heir To The Empire' first came out. I had read 'Splinter of the Mind's Eye', the FIRST Star Wars novel outside of the original trilogy books (which ALL stink, by the way) and although it was entertaining, it just seemed like a story with characters who had the same names as Leia & Luke & Darth etc. There was no real substance that tied the 'spirit' of the movies to the book. But even so, I gave Timothy Zahn a shot, and all I can say is WOW! He has captured the very 'essence' of Star Wars PERFECTLY. IF George Lucas ever decided to make Episode 7, 8 & 9 he would start with 'Heir' for sure. I don't think even HE could improve upon his own stories any better than Zahn has. Everything from Grand Admiral Thrawn (a fantastic character, and MUCH more depth than Darth or the Emperor) to the Emperor's Hand, Mara Jade, to the ingenious introduction of creatures that actually REPEL the Force, this book and its incredible sequels are NOT to be missed. If you have EVER wondered if there were novels about the Star Wars Universe that were every bit as good as the movies, than Zahn is your author and the next series you read should start with 'Heir To The Empire'. I have read and re-read this series 3 times now, and each time I find something new to remember, and another reason to be impressed with Zahn's writing style and ability. I have also read almost all of the 'other' Star Wars novels out there (since a rash of them have been published since the completion of 'The Last Command') and there are but a small few that are even worthy of the Star Wars name, and none of THEM even rival THIS series by Zahn. I'm telling ya, THIS is IT! Ever wonder where Lucas

came up with the name for the Imperial world, 'Coroscant'?
